Professional Summary

I am a Full Stack Developer with prior experience in ERP development. After a period working in public finance, I reignited my passion for technology. Currently, I am pursuing a degree in Software Engineering and updating my skills in modern web development technologies.

My expertise includes:

- Developing web applications using **HTML5, CSS3, JavaScript (Vanilla), React, and Node.js**.
- Integrating **REST APIs** and working with **SQL and NoSQL databases**.
- Proficiency in **version control (Git, GitHub)** and responsive design with **Bootstrap and Sass**.
- Applying agile methodologies (**Scrum, Kanban**) for software development.
- Experience with **ERP systems**, including Sales, Purchasing, Accounting, Logistics, and Inventory modules.

I am seeking a **Developer** role to leverage my technical skills and experience, contributing to innovative projects.

Professional Experience

City Council of Bauru, Bauru/SP

Head of Financial Services

06/2018 – 04/2022
